

Fieldtrip to a hedge

This fieldtrip is to the nearest hedge to study the trees in the hedge.

Each group will need an umbrella, a pooter and a few jars.

At your hedge, find the trees you know and collect a leaf from each one. Bring them back to class and stick on to this page and name each one.

We found _____ had the most creepy-crawlies.

Were the same creepy-crawlies on every tree?

_____ were on every tree.

_____ was only on _____ tree.
