

Notes on the Trail

- It took 3rd/4th Class 25 minutes to walk to Kieran St from Kilkenny School Project at a reasonably brisk pace.
- The trail itself should take approximately 35 minutes, but naturally the time it takes depends upon the dynamic of the group.
- As it would be very difficult to keep a large class together, the trail leaflets are designed for two groups - one group starting at the back of the Shee Alms House on St Mary's Lane and the other at the sculpture of St Canice outside Winstons.
- A set of clipboards makes life easier for everyone.
- When photocopying the sheets, only use one side of the paper - much more user-friendly on the day!
- Put the setting on the photocopier at the lighter end of the scale so that the photos won't be too dark.
- The vaulted ceilings in the basement of Kytelers are worth seeing. If you would like to take your class down, contact Kyteler's Inn in advance 7721064. Their busy time is 1.00 - 2.00, so take this into account when planning the trip. We also recommend contacting the Tourist Office (Shee Alms House) 7751500 as a courtesy.
- Take note that St Kieran Street gets very busy in the tourist season.
